The fast track for ambitious companies outgrowing SME accounting software

Key benefits at a glance

Modernise your finance function

Automate day-to-day finance processes by capturing and preparing core financial records in one, integrated Cloud platform with 24/7 secure access.

Full audit trail with drill down to transactions, notes and documents.

Multicurrency capability for transactions and reporting.

Simplify intercompany recharging across subsidiaries.

Scalable set up additional entities in minutes.

Easy to use modern, intuitive design for seamless workflows and collaboration.

Easily consolidate multiple entities

- Create consolidated accounts in just one click.
- With no more spreadsheets to collate and reconcile, you have an accurate, real-time group-view to inform decision making.

Tech stack integrations

- Get full financial visibility by seamlessly integrating with your other business software through our open API.
- Our in-house integration team has the expertise to support customised integrations.

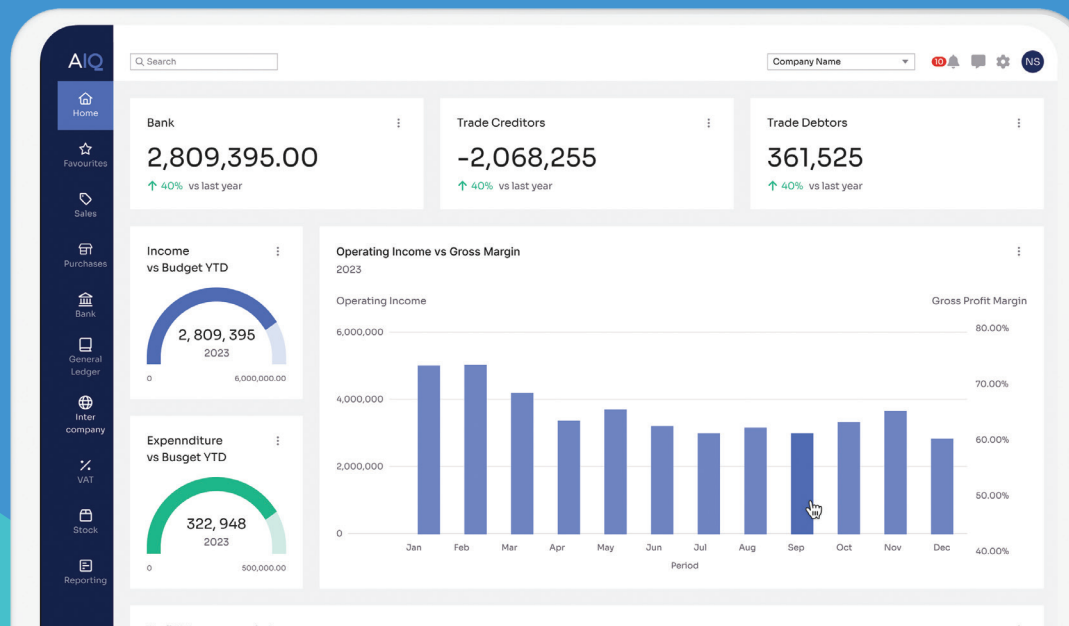

Data and insights you can act on

- Track multiple KPIs and deliver granular, real-time financial reports and actionable insights to all your stakeholders.
- Empower your business to make key decisions fast and improve business outcomes.

Full support from in-house experts

- For finance teams, QHub gives you everything you need to succeed, all in one place. From onboarding and training to on-going support with new feature adoption and integrations.
- You can access all our Customer Success services from the 'Q' link in your AIQ screen.

Benefits of partnering with AccountslQ

Our Accountant Partner programme makes it easy and flexible for accountants to partner with AccountslQ.

Clients outgrowing their current accounting system?

You can refer us as a ready-made solution to them. Our software enables accountants to offer new valuable advisory services that solve many of the challenges faced by their high-growth clients, such as consolidation, multi-dimensional reporting and custom integrations with 3rd party systems.

This ensures you can continue to support your growing clients, while we take care of their onboarding, training and on-going system support.

Offering outsourced services?

You can manage all your clients on the new Partner Hub.

You just log-in once and see all your AccountslQ customers listed on one centralised platform, making it easier to report on key metrics across your client accounts. You can also quickly set up new clients and create access controls to ensure full security.

Empowering ambitious companies with next-level accounting software solutions
