

Award-winning Cloud accounting & management reporting

For mid-size businesses and groups

AccountsIQ

Support your growing clients, attract new clients and win bigger business

Accountancy practices all over the world are choosing AccountsIQ as their preferred outsourcing solution for their larger SME clients.

With our multi award-winning cloud accounting solution, you'll be able to gain new clients and retain those clients who've out-grown the first generation of cloud accounting products. You'll also be able to deliver higher-value advisory services with the deep business insight gained from AccountsIQ.

Solve complicated accounting and consolidation pain points

Designed for Group accounting and fast-growing companies, AccountsIQ's powerful GL, six levels of BI coding, instant multi-company and multi-currency consolidation means you'll save a huge amount of time.

Numerous spreadsheets, countless hours spent manipulating data, irregularities and risk are all symptoms of a bad consolidation routine. With AccountsIQ you can save days, not hours, consolidating group reports.

With AccountsIQ you can

- Consolidate multiple subsidiaries and sub-groups
- Automate intercompany transactions & elimination
- Define minority interests
- Auto post minority interest adjustments
- Handle multicurrency consolidation
- Maintain central exchange rates
- Convert results to group base currency
- Define subsidiaries and shareholding
- Post consolidation adjustments at group level

Deliver advisory services using real time business intelligence

With powerful analytics and reporting dashboards you can spend less time manipulating data and more time helping your clients make better business decisions.

You'll be able to provide high value reporting directly from AccountsIQ

- Suite of 250 reports and dashboards
- Direct output to Excel
- Connect to PowerBI for powerful data visualisations

Automate group VAT making tax digital compliance

With AccountsIQ you can easily produce consolidated Group VAT returns. Ditch the export/import hassle and calculate Group VAT within one solution.

- Automatically generate a group VAT routine compliant with Making Tax Digital
- Maintain digital links throughout the group VAT calculation
- Full audit trail of user interactions

Realise efficiency & profitability gains

AccountsIQ brings efficiencies through automation, mobile access and integration. Digitalising finance in the mid-tier space is now a lot easier.

Gain access to new markets & sectors

Through our open API, AccountsIQ is easily integrated with other Cloud apps creating whole solutions for new sectors. AccountsIQ is already integrated with:

Flexible & scalable for your growing clients

Born in the Cloud and with huge flexibility and scalability designed in, your clients are never likely to outgrow AccountsIQ. It is easy to deploy, typically 4-6 weeks, with a lot less stress associated with typical ERP system implementations.

As a leading SaaS technology company, we're constantly innovating and actively involve our partners in our product roadmap

“AccountsIQ’s solution is unique in that it gives businesses what they need to support growth and it gives us what we need to serve those businesses in a very secure and robust manner.”

Who is AccountsIQ ideal for?

Many of the organisations and accountants who use AccountsIQ:

- Require reporting across multiple companies in different currencies
- Have an industry-driven need to integrate their accounting software with different applications, in different parts of the business
- Need deep business intelligence or have more complex accounting needs
- Are emerging out of the micro end of the market and need more sophisticated financial management to help them grow
- Want to become more efficient – saving time, automating processes and reducing paper

We're typically a great fit for clients in the Investment Management, Technology, Renewable Energy, Engineering, Construction and Not for Profit sectors as well as fast-growing companies and start-ups.

Our partnership approach

Our partner programme offers a strong value proposition, tailored support, and the outsource toolkit you need to deliver a perfect solution for your clients.

We provide you with:

- A platform to test, demo and add groups/companies on demand
- System and implementation training
- Flexible pricing model to suit your clients

We work with you:

Collaboration is key to our successful partnerships. We'll work together on a joint business plan and kick off event.
