

AccountsIQ

Powering sustainable growth for renewable energy finance teams

Demand for renewable energy is surging. Finance teams face the challenge of managing multiple renewables assets (usually via SPVs). AccountsIQ enables you to automate your complex accounting processes and consolidate and report across multi-currency and multi-site operations.

AccountsIQ is rapidly becoming the finance system of choice for renewable energy companies who need to track the pre- and post-operational costs and revenues of individual assets on one platform.

Trusted by these Renewable Energy firms

“AccountsIQ has unique capability to manage wind and solar farm SPVs in a highly controlled environment.” Ray O'Neill, CEO, Fincovi.

 **Simplify intercompany recharging** across multi-site operations

 **Scalable and easy to use:** set up additional SPVs and entities in minutes

 **Track multiple KPIs and manage the profitability of renewable energy assets** from construction to operation with six-dimension reporting

 **Consolidate multiple SPVs** and entities in 1 click

 **Automate most manual accounting tasks:** invoice capture, expense management, bank reconciliation and approval workflow

 **Cloud-based, 24/7 secure, online access** enabling multi-site working

 **Full multicurrency capability** for assets in multiple jurisdictions

PROFORECAST

GO CARDLESS

What our renewable energy customers say

“Implementing AccountsIQ has freed up over 20% of our finance team’s time mainly due to automating key processes and enabling us to go paperless.”

**Justin Ampofo, Finance Manager,
BayWa r.e**

“The biggest benefit we see with AccountsIQ is that the data is dynamic. We can drill down into the data, solve the query, and re-run the report accurately. We simply update or overwrite as necessary.”

**Simon Brown, Financial Controller,
Getech**

“The reason I chose AccountsIQ is its ability to automate aspects of our monthly consolidation. It takes it off Excel and provides a seamless system driven PO process.

**Robert Dillon, Financial Controller,
Phelan Energy Group**

Trust AccountsIQ to deliver

Our flexible user-based pricing and ability to set up business users gives you full flexibility as your organisation grows.

Up and running in as little as 3 weeks

Our implementation consultants are experienced in supporting renewable energy finance teams through the entire onboarding process.

Once live, we provide on-going customer support and our AIQ Academy e-learning platform is always on hand to make sure you get the best out of your new finance system.
